

HOW DOES NAVIHUB WORK

Quickly about the brand new geolocation service

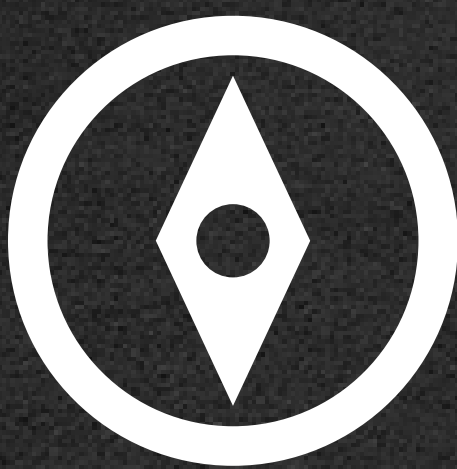

FIRST, AN IDEA

Hungry? Let's get pizza! Or maybe sushi? We could try the new bar next door! I really want to visit the nearest water park. Where is the cafe, which I passed by yesterday? And much more.

NEXT, THE RESEARCH

Make yourself comfortable. Now, fire up the web browser with www.navihub.net and pick one of the best looking places it offers you.

FINALLY, LET'S GET ROLLING

Turn off your phone, pack your things. Let's go! **Every** search result on Navihub has it's own **detail** page with e-mail, phone, **route** details and much more.

Like it? But wait, there is more!

Super rich results

Multiple data sources allow us to serve you rich and diversified content. You won't have to search through multiple sites again.

Anonymous & secure

We take privacy very seriously. We don't use any 3rd party tools, we don't collect or share any sensitive information.

This and much more at www.navihub.net

Navihub

The geolocation service that doesn't track you.
